ENGLAND

On the death of the last of the Marian Bishops in the reign of Elizabeth, the Catholic Hierarchy in England became extinct. It was restored Sept. 29, 1850, by Letters Apostolic (*Universalis Ecclesiae*) of Pius IX when the Metropolitan See was transferred to Westminster. By Letters Apostolic of Oct. 28, 1811, of His Holiness Pius X the Province of Westminster, which had fifteen Suffragan Sees, was divided into three Provinces—Westminster, Birmingham, and Liverpool. With Westminster remain the dioceses of Northampton, Nottingham, Portsmouth, and Southwark. To Birmingham were assigned the dioceses of Clifton, Newport, Plymouth, Shrewsbury and Menevia. The remaining Sees of Hexham and Newcastle, Leeds, Middlesbrough, and Salford were assigned to Liverpool. On February 7, 1916, Newport was raised to archiepiscopal rank under the name of Cardiff; and, with Menevia as a Suffragan See, was formed into a fourth province. In 1917 the county of Essex was separated from Westminster and made into a separate diocese (Brentwood) of the Province of Westminster. In 1925 the See of Lancaster was carved out of Liverpool and Hexham and Newcastle.

The Catholic Population of England and Wales is 2,353,189.

ILLUSTRATES

Two examples of work as typical of the many beautiful creations which may be seen and admired in churches and shrines throughout the United States. The company has a background of achievement covering a period of forty years and is well-known for manufacturing with meticulous care and designing with great taste and discretion in the interpretation of the work of the ancients and work of the most modern characteristics.

*At right: side altar shrine of
Our Lady of the Sacred Heart
Sacred Heart Seminary, Geneva, Illinois*

The aged Saint of Sublime purity holds in his arms,
The Only Begotten Son of God.

The expression of saintly meditation and profound
reverence on the face of St. Joseph seems to say,
This is God Your Savior.

Carved oak is the most perfect medium for this
superb work of religious art. Many do not realize it
who are accustomed to the painted models of re-
peated production.

Fortunate is the church which possesses well de-
signed and well carved oak statuary.

Fortunate indeed are the faithful who receive its
appealing spiritual message.

The output of this work is limited which makes
it all the more rare and unique.

LOHMANN VESTMENTS

Noted for their Quality and Design

As specialists in medium priced and fine vestments our domestic productions compare more than favorably with imported grades. Design No. 1050 is typical of the exceptionally fine hand work, the expert tailoring and careful finish for which Lohmann Vestments are so favorably known from coast to coast.

We illustrate a rich, two-toned Salisbury brocade, in maize and white, woven in an excellent ecclesiastical pattern.

The orphrey is silk velvet in contrasting colors, with design in Jap gold, gold cloth applique and silk hand embroidery in exquisite colors. The chasuble is edged with silk and gold cord and Celanese taffeta lined. Matched sets, made in all liturgical colors, are priced:

Medieval chasuble	\$230
Cope	264
Dalmatics	462
Velum	113
Stole	28
Regular chasuble...	195

A Word to our Clientele: For many years The Lohmann Company has been able to supply promptly **all** your needs in church goods, furnishings, sacramental wines and religious articles. All of us realize the unusual conditions which will continue for the duration and the shortages that cannot be replaced until peacetime production resumes.

There are, however, countless items, for the smallest church as for the cathedral, which **we are able to supply right now** and rather than postpone replacement of articles urgently required, we suggest that you write us at length and we will tell you how well our still substantial stocks will enable us to serve you immediately.

Altar Frameworks

OUR years of experience in building Liturgical Hangings and Framework for the Altar qualify us to suggest correct DESIGN, FABRICS and COLORS. The entire decorative effort is within the compulsory regulations governing liturgical art.

The DESIGN is created and executed to correspond with the style of the interior and to hold its artistic values under both natural and artificial lighting.

The FABRICS, of special design and weave, are available from the least expensive and medium-priced materials to the finest of cloths. The varied range of fabrics, silks, velvets, brocades, silk da-

masks, rayon embroidered fabrics, cloths of gold, permit a wide choice in achieving a perfect, liturgically correct treatment.

The COLORS, accurate in shade, have been developed to create an inspiring, harmonious result. Thus, a liturgically exact and artistic color scheme is assured.

The cost for decorating the Altar surroundings is arranged to meet your budget; it is never necessary to go beyond budget limits to achieve a beautiful, artistic and correct result. Write today for our "LITURGICAL HANGINGS" brochure, or better still, a representative will gladly call for consultation with you.

A FOUNDATION OF INTEGRITY

BRAND names are far more than commercial symbols, especially in the realm of those devotional essentials around which the practice of the Faith eternally revolves. In selecting Candles, for example, it is reassuring to know that your source of supply is managed by a personnel grown up in the age-old traditions of the Church and fully conversant with its rubrical requirements. And when, to that life-long allegiance, is added a record of more than a quarter of a century of devoted service to Catholic Churches and Institutions throughout America, does it not bespeak your complete confidence?

That, in brief, is the story behind "Diamond." In serving you with Rubrical Beeswax Candles, Votive Lights, Stearic and Composition Candles and Sanctuary Appointments we have but one objective—to deserve your patronage both through the sheer quality of our products and the superiority of our service.

What IS Safway ?

Safway is a scientific system of tubular steel members which may be set up on the job to any height, width and length.

The basic unit set up consists of two end frames held firmly together by two cross braces. This forms a unit 5' wide, 7' long and 5' high. Desired heights are obtained by adding similar units and fastening them together with coupling pins. Additional lengths may be obtained by adding additional frames secured by cross braces.

● Regular inspection and maintenance work are the surest way to protect building investments and insure low cost upkeep. Safway Steel Scaffolding reduces maintenance time and labor costs; it provides safest footing for workmen and yet permits full use of building while work is in progress.

NO TRAFFIC LANES ... NO WORN SPOTS

when floors are finished with Seal-O-San

Scuffing Feet Can't Mar this Wear-Proof Finish

WHEREVER you find traffic-scarred floors, there also you find a surface floor finish that has failed. Under the abuse of traffic, the hard, brittle surface-finish cracks and breaks, exposing the wood cells beneath. Continued pounding and scuffing crushes these empty cells... starts an unending trail of worn spots across the floor.

A Penetrating Seal-O-San finish actually becomes part of the wood. As the liquid penetrates, it fills the empty wood cells, then hardens to form a *protective* seal against dirt, moisture, or wear. Because this seal extends below the surface of a Seal-O-San finished floor, you never see traffic lanes or worn spots.

Applying Seal-O-San to a newly sanded or

cleaned floor is simplicity itself.

Two, thin, quick-drying coats, and the job is done. The result is a hard-wearing floor—*always* attractive—*easily* kept clean.

That is why Notre Dame, Holy Cross, Trinity College and 5200 other institutions have Seal-O-San finished floors. For Seal-O-San points the way to real maintenance economies. Sturdy, durable and inexpensive to apply, Seal-O-San cuts refinishing costs 50% and more.

It will pay you well to refinish all your wood floors with Seal-O-San. You'll find it the most economical floor finish you can use.

97 Years of Leadership in INSTITUTIONAL FOOD SERVICE EQUIPMENT

Ever since its establishment in 1847 The John Van Range Company has specialized in equipment for preparing and serving food for public and private institutions. The first portable steel range in the world was an invention of the founder of this Company. His successors have pioneered in developing new and improved equipment consistent with the advances in the science of mass feeding in schools and colleges, hospitals, convents and other institutions. ☆ Thousands of establishments, for which we have planned the food service departments and manufactured the equipment, testify to the resulting economies of maintenance and operation. Those listed below are fairly representative.

WHAT

"AMERICA"

SAYS

"Now that Mr. Norton has written this exceedingly able book, no school can excuse the lack of a course on the Constitution by pleading the hitherto mournfully valid excuse: 'There is no good text-book.' Mr. Norton is clear and concise; the arrangement of the matter is excellent, and the book will serve equally well for the class work and private reading."

Alfred E. Smith says: "Our Constitution is the civil bible of Americans."

DEMOCRACY is the outgrowth of the religious conviction of the sacredness of every human life. On the religious side, its highest embodiment is the Bible; on the political, the Constitution.

Most Sanitary and Economical Brush Made

THIS self-moistening "Dustless" Brush has a metal reservoir which is easily filled with "Arbitrin," a specially prepared sweeping fluid. As the brush sweeps this fluid filters through the center row of tufts, making the best kind of sweeping compound out of every bit of dust it contacts. This dust dampened with "Arbitrin" cannot rise to contaminate the air. Scientific tests conducted by Health Authorities for a large number of schools have proved that the "Dustless" reduced the dust in the air 97 per cent as compared to other methods.

The "Dustless" brush has also proved in hundreds of cases that it makes for faster sweeping, saves floors, eliminates the need of periodic scrubbing and bleaching, and outlasts ordinary brushes 3 to 1.

The construction of the "Dustless" is as unique as its performance. Tufts are specially selected stiff, black horsehair. They are not just stapled but hand-drawn into the block with rust-resistant wire. They cannot come out or come loose. Pressed steel reinforcing back is clinched all around the block to prevent splitting. The fluid reservoir is also of steel. The liquid feed arrangement keeps inside tufts constantly and evenly moist. The handle is instantly reversible and adjustable to the height of the sweeper. Tufts are $3\frac{1}{4}$ " long and trimmed flat.

We have for the past 70 years specialized exclusively in the making of Stained Glass Windows. They are, and have been designed and executed for many years in our New York workshop under the personal artistic direction of Mr. Zettler.

THE war's close will bring a wish, nay more, an obligation, to commemorate the sacrifices of our men and women who served in the Nation's armed and auxiliary forces. The beauty and permanence of cast bronze have made of it the traditional material through which this may be done.

A tablet or honor roll of bronze forms a most fitting tribute, recalling names and deeds and preserving a record for the inspiration of posterity.

When Peace Comes

It is inevitable that this strife-torn world will again be adjusted to peaceful pursuits. *War Production* is all-important today—construction planned now, is also all-important for tomorrow.

The Parish or Institution that has a well planned program will avoid the confusion and delay of post war. . . . Today, the administrator can leisurely plan for future needs. The architect has more time to devote to consultation, study and preliminary design. The economical advantages of post war planning are many. Advance planning, studied and discussed in detail, results in better buildings—definitely to the owner's advantage.

School for Exceptional Children, Longmont, Colo. Sisters of St. Francis of Assisi. An example of post war planning.

To make each
Möller organ a little better
than the one before

To build the Artist of Organs there must be pride in fashioning even the smallest part... desire for perfection... plus knowledge, plus understanding.

It takes time to produce a craftsman. And it is no uncommon sight to find father and son side-by-side at a Möller workbench. It is not exaggeration to say that an organ reflects in its tone the quality of the workmanship that built it.

The name Möller is a synonym for the highest in pipe organ achievement. Möller craftsmen have earned their name... through mastery of their particular skills... through pride in their work... through adherence to the ideal—to make each Möller organ a little better than the one before.

For as short a time as we can make it, Möller craftsmanship must yet turn its skills to Production for Victory. Our organ service will be maintained however, as in the past, and we will gladly quote on the rebuilding of organs where war-essential materials are not required.

KINNEAR STEEL ROLLING FIRE DOORS AND WINDOW SHUTTERS

When fire threatens, Kinnear Steel Rolling Fire Doors and Window Shutters close quickly, automatically, positively and safely. They feature a fireproof curtain of interlocking steel-slat construction that cuts off drafts and blocks the spread of fire. Yet these doors can often be installed so as to be completely concealed in the wall when open. Safety for occupants of the building at the time of fire is assured by a device which controls the downward speed of the doors after release, and by a counterbalance which makes it possible to raise the doors after closure. Kinnear Fire Doors and Shutters are specially built to fit openings of any size. Kinnear also builds Steel Rolling Service Doors, Metal Rolling Grilles, and Upward-acting Doors of other types in both wood and steel. Consult us.

Left: Shows the attractive way Kinnear Window Shutters may be installed—all working parts concealed.

Right: A corridor opening equipped with a Kinnear Rolling Fire Door.

KINNEAR STEEL ROLLING SERVICE DOORS and METAL ROLLING GRILLES are two other Kinnear Products that have proved for many years in actual service their high efficiency of operation and maintenance for all classes of openings and in all classes of buildings. Write for details.

AN INTRODUCTION TO PHILOSOPHY

By **PAUL J. GLENN, Ph.D., S.T.D.**

Professor of Philosophy

College of St. Charles Borromeo, Columbus, O.

\$3.00

This book is primarily a class manual. But it will serve many as an adequate review of philosophical studies. It will be of value too for the studious person who, without benefit of teacher, wishes to know something of the meaning of philosophy and of its most interesting story.

The volume is timely, for there is great current need of a clear statement of philosophical doctrine. Never has the world been in greater need of clear thinking, of true evaluation of reality, of the reasoned acceptance of duty. True philosophy, far from being a thing in the clouds, is the most essential of practical sciences which enables a man to keep his feet solidly on the ground.

Professor Glenn, whose series of ten textbooks in philosophy is well and favorably known, has written the present work with the same directness, clarity, and energy that characterize his other writings. There is here a minimum of the technicalities and of the learned apparatus which render formidable most writings on philosophical subjects.

The book is made up as a companion volume for Dr. Glenn's History of Philosophy, a work that has now gone into its ninth printing. The publishers feel that this Introduction to Philosophy will receive a merited and sustained welcome.

CATHOLIC + FAITH + A CATECHISM

THE CATHOLIC CATECHISM of Cardinal Gasparri has done more to unify catechetical instruction than any other work.

Edited by REV. FELIX M. KIRSCH, O.F.M. CAP., Ph.D., Litt.D.,
and SISTER M. BRENDAN, I.H.M., M.A.

1 AUTHORITATIVE SOURCE

CATHOLIC FAITH is based on THE CATHOLIC CATECHISM by Cardinal Gasparri which has been approved for use throughout the Catholic world. The original was compiled by a special body of the

Consultors of the Congregation of the Council, under the presidency of the Cardinal Prefect for the purpose that it be translated into the vernacular of the various countries throughout the world.

2 TEACHABLENESS APPEALS TO TEACHERS and PUPILS ALIKE

Teachers, particularly Sisters of the Religious Orders, were first to realize the lucid presentation of CATHOLIC FAITH. Having seen the book demonstrated at various catechetical conferences and hear-

ing of its smooth pedagogy from fellow teachers, they realized that students can more readily absorb the matter of catechism from CATHOLIC FAITH than from any other system.

3 TEACHER MANUALS

CATHOLIC FAITH EXPLAINED, Books I, II and III, include two parts: the first, Essentials in Teaching Religion, which in 58 pages gives the method and spirit of the

entire program, while part two takes each particular item, page by page, and supplies the answer in the correct manner of presentation.

4 DURABILITY REDUCES COST

Among catechisms, the past few years have brought about many changes in format. This was started by CATHOLIC FAITH

which avoided inexpensive, perishable bindings and first presented sturdy, durable books which last more than one term.

NO OTHER CATECHISM MAKES ALL THESE CLAIMS!
